

Please join the **LOURDES BOOK CLUB** for a book discussion on Saturday, August 25, 2018 at Panera, Emory Village at 7 p.m. for dinner with the discussion to begin at 7:45 p.m. Our book selection is: *The Girl Who Saved The King of Sweden* by Jonas Jonasson. From the Back Cover: In a tiny shack in the largest township in South Africa, Nombeko Mayeki is born. Put to work at five years old and orphaned at ten, she quickly learns that the world expects nothing more from her than to die young. But Nombeko has grander plans. She learns to read and write, and at just fifteen, using her cunning and fearlessness, she makes it out of Soweto with millions of smuggled diamonds in her possession. Then things take a turn for the worse. . . .Nombeko's life ends up hopelessly intertwined with the lives of Swedish twins intent on bringing down the Swedish monarchy. In this wild romp, Jonasson tackles issues ranging from the pervasiveness of racism to the dangers of absolute power. In the satirical voice that has earned him legions of fans the world over, he gives us another rollicking tale of how even the smallest of decisions can have global consequences. **Can't join us for the book discussion on August 25 but want to contribute to our conversation, email Carole Lacour at carole.lacour30@gmail.com with comments, etc. or call 770-951-3417.**

JULY IS UV SAFETY MONTH: Who is at risk from eye damage from the sun? Yes, everyone (including children) is at risk for eye damage from UV radiation that can lead to vision loss. Any factor that increases the amount of time you spend in the sun will increase your risk. People who work or play in the sun for long periods of time are at the greatest risk. The risk of sun related eye problems is higher for people who: spend long hours in the sun have had cataract surgery* or have certain retina disorders are on certain medicines, such as tetracycline, sulfa drugs, diuretics and tranquilizers that increase the eye's sensitivity to light. *If you have had cataract surgery, you may be more at risk of injury from sunlight unless the artificial lens you received during surgery absorbs UV rays. Please consult your Ophthalmologist or Optometrist, if you have concerns.

Thoughts on Stewardship

Generosity recognizes that significance comes through relationships, serving and sharing with others. This often contrasts with success which focuses on accumulation, achievement and status.
