The prayer includes chants, scripture readings, petitions and a period of silence. The back parking lot, behind the Drexel Center will be open for parking if there are no places available at the side of the church.

November is National Lung Cancer Awareness Month Lung Cancer is a tragic disease that takes a terrible toll on those with the disease, as well as their loved ones. Lung cancer is the leading cancer killer in both men and women in the United States. In fact, more people die from lung cancer than any other type of cancer. The American Lung Association has long been the leader in the fight against lung cancer and is taking new steps to help both patients and their families. Quitting smoking is the single most important step a smoker can take to reduce their risk for lung cancer. Quitting can be tough but smokers don't have to quit alone. Smoking cessation programs have helped smokers quit for nearly 30 years. Freedom From Smoking & Not-On-Tobacco are two programs available to help adult and teen smokers quit for good. The Quitter in You program is designed to help people who have tried to quit before see each attempt as a step to success, not a failure. Speak with your Primary care Physician regarding your risks for lung cancer and lung disease.
