Saints and Holy People of African Descent ~ Blessed Daudi Okelo & Jildo Irwa

Saintly Children

These two young men were lay catechists who voluntarily walked into martyrdom. They both belonged to the Acholi tribe and were catechized by the Comboni Missionaries in 1915. Daudi Okelo was born around 1902 in the village of Ogom-Payira to pagan parents. He received Christian instructions and was baptized around the age of fourteen and immediately wanted to be a catechist. Jildo Irwa was born around 1906 to pagan parents in the village of Bar-Kitoba. He was baptized by Father Cesare Gambaretto on June 6, 1916, at about age ten. He and Daudi were confirmed on the same day, October 15, 1916. In 1917, the local catechist died and Daudi petitioned the local priest, who was Father Cesare, for the position. The job entailed going from village to village to instruct the people about the Catholic faith. Daudi was eager to get started, so Father Cesare assigned Jildo as his assistant. Before the two young men set out for their first catechetical journey, Father Cesare spoke to them about the difficulties of their assignment. They both were committed to their mission. According to the Vatican's biography, Daudi is described as a young man of peaceful and shy character, diligent in his duties as a catechist and loved by all. He never got involved in tribal or political disputes. Father Cesare said that Jildo was of a lively and gentle nature. He was quite intelligent. Both young men were martyred on the same day. Five people entered their hut and told Daudi to stop his teaching. When he refused, they pierced him with their spears then threw his body onto a termite hill. The attackers then pierced Jildo with a spear, and then another one hit him in the head with a knife. Daudi was sixteen and Jildo was twelve at the time of their martyrdom. Pope John Paul II beatified them for their Christian witness and faithfulness to the Gospel on October 20, 2002.

Everyone age 6 months and older needs a seasonal flu shot every year. Here are some other shots people need at different ages: Young children: Children under age 6 get a series of shots to protect against measles, polio, chicken pox, and hepatitis. Pre-teens and teens: ✓ Pre-teens need shots at age 11 or 12 to help protect them from tetanus, diphtheria, whooping cough, meningitis, and HPV (human papillomavirus). ✓ Teens need a booster shot at age 16 to help protect them from meningitis. Adults: ✓ All adults need a booster shot every 10 years to protect against tetanus and diphtheria. ✓ People age 65 or older need a one-time pneumonia shot. ✓ Talk to your doctor or nurse about which shots you and your family need.
