ABLE – is a multi-racial, interfaith regional coalition of congregations, unions and grassroots organizations that develops and empowers ordinary people to become leaders who effect change in their communities for the common good of all.

ABLE works to bring people together across the lines that divide the region: race, class, language, political boundaries and ideologies.

ABLE is a vehicle where people find common ground to express common values and work for the common good of all.

ABLE exists to identify leaders, then nurture, train and develop those leaders so that together their voices can be heard.

Member organizations contribute their time, talent, and resources to support the work of ABLE.
